

# Online Training Session on “Digital Transformation of learning in organic farming”

## Partner

- AGROBIO – Associação Portuguesa de Agricultura Biológica

## Stakeholders

- André Gomes Pereira – Quinta do Montalto; partner of the project “BIO Sparkling Wine”
- António Francês – Cucumbi; Partner of the project “Biodiversity in a BIO farm”

**Tuesday, September 15<sup>th</sup>**  
**10:00/16:00 CET**

# Online Training Session on “Digital Transformation of learning in organic farming”

## BIO Sparkling Wine

**Coordinator: AGROBIO**

### Context

Sulfur dioxide (sulphites) is recognized as dangerous by World Health Organization (WHO).

### Objectives

- Obtaining a sparkling wine produced exclusively with must, without added sugar cane and with half the dose of authorized sulfur dioxide (**Quinta do Montalto**);
- Optimize production through fewer treatments sulfur-based.

# Online Training Session on “Digital Transformation of learning in organic farming”

## Biodiversity in a BIO farm

**Coordinator: AGROBIO**

### **Objectives**

- Detection of existing biodiversity on a farm in organic farming (**Cucumbi**);
- Elaboration of an e-learning course (Identification of Auxiliary Fauna existing in organic farms (**AGROBIO**));
- Criation of an Organic Agriculture Manual.
