

**WELCOME to the START UP BIO
online training session on**

“Digital transformation of learning in organic farming”

September the 15th, from 10.00 to 16.00

The training event, open to relevant public and private stakeholders in organic sectors, is:

- Implemented under the framework of the **ERASMUS + KA2 STRATEGIC PARTNERSHIP FOR INNOVATION IN VET START UP BIO PROJECT** A 2-YEAR PROJECT from November 2019 to October 2021

-  **FEDERBIO SERVIZI SRL**
-  **VALOR ECOLOGICO CAAE**
-  **FiBL Europe - Forschungsinstitut für biologischen Landbau in Europa**
-  **ACADEMY OF ENTREPRENEURSHIP
ASTIKI ETAIREIA**
-  **AGROBIO - Associação Portuguesa de Agricultura Biológica**

**Coordinator:
Centofarm -IT**

The main objectives of the **START UP BIO PROJECT** are:

- Fostering the diffusion of organic farming at European level, valorizing the peculiarity of the territorial skills-ecosystems, starting from the partner countries, IT, B, ES, PT, GR;
- Co-designing digital training resources for upskilling of “aspirant organic farmers”;
- Contributing to the digital transformation of learning (DTL) in the organic sectors, as leverage of innovation at *glocal* level;
- Adopting a participatory approach to innovation, through the engagement of relevant stakeholders.

The main deliverables of the START UP BIO PROJECT are:

- A set of 15 training video pills freely accessible on the project platform <https://startupbio.eu/> focused on the main topics of organic farming
- N. 2 e-learning courses (based and advanced);
- N. 1 European virtual incubator supporting the creation of new businesses in organic agriculture

**Testing phase in all partner countries:
November 2020- September 2021**
